

2018 - 2019

SOUTH AMERICA

Straddling the Equator, 1000km from the coast of Ecuador on the South American continent, these so-called Enchanted Islands emerge from the vast Pacific Ocean in a seemingly haphazard array of rocky outposts, each as individual as the next.

GALAPAGOS

Galapagos! The name alone resonates on so many levels. It is surely a must-see destination on any naturalist's bucket list. Known as the birth place of the Theory of Evolution and as a Living Laboratory, Galapagos is indeed a place where basic evolutionary principles can be observed first hand. Charles Darwin famously visited the archipelago in 1835 on board the HMS Beagle. He stayed in the archipelago a mere five weeks yet, his profound powers of observation were to change forever the way that we have come to understand how life has evolved. As important as it has proved scientifically the Galapagos will provide any

wildlife-loving visitor with a great sense of enjoyment, satisfaction and oneness with the world. We encourage the respectful visitor to come and see the islands for themselves. They are home to an eclectic, incongruous, mix of species. We have some of the largest shark concentrations anywhere along with sea lions, fur seals and turtles. The islands are a rich mix of active volcanoes, stunning beaches, a rich ocean and abundant, tame wildlife. In short, Galapagos will not fail to please. Come and see for yourself!

BE AMAZED EVERY DAY

THE GALAPAGOS EXPERIENCE

With the first gaze from your cabin's picture windows, as dawn breaks over the Pacific Ocean, the day begins in earnest. While the stress of a chaotic world fades to a distant memory a new, all-consuming, reality takes shape as our Galapagos adventure develops. Our options are endless and varied, we might find ourselves strolling amongst nesting blue-footed boobies, sitting quietly watching waved albatross in full courtship display or share a quiet corner of a white-sand beach with relaxed sea lions. Each day the ocean beckons. Some will choose to discover her secrets from the novel perspective of a transparent kayak or, perhaps,

the comfort of a glass-bottom boat. Others will crave the intimacy of diving her depths with mask and fins, to be at one with penguins, green turtles, cavorting sea lions or large schools of surgeonfish.

All the while we are in the company of expert naturalist guides and our vessel, a 5-star floating hotel that seems to unobtrusively follow us around, hovering in expectation to receive our happy souls back to her comforts. The pool bar, a cold local beer, the Jacuzzi, an *al fresco* barbeque under a star filled mantle - it really doesn't get much better.

OUR OFFERED ACTIVITIES

Endless options are available for you to explore the islands. All activities are included except where otherwise noted.

GLASS BOTTOM BOAT

We are proud to also offer our glass bottom boat to those who might want to stay dry yet still share in the magic of the Galapagos submarine environment!

In the company of our naturalist guide you will be taken to the best vantage points to look down into the underwater world.

HIKING

Twice-daily excursions ashore to the best visitor sites permitted by the national park.

We will always be in the company of an expert naturalist guide.

Walks will concentrate on spending quality time learning about the native fauna and flora. We will have ample time to observe, absorb and photograph.

For your convenience walking sticks are available for those who wish.

DINGHY RIDES

We offer guided dinghy tours to extraordinary spots around the islands into otherwise inaccessible areas.

SNORKELING

With snorkeling equipment available on board (at no cost) we invite you to explore the exuberant underwater world.

A naturalist guide will always be present while snorkeling.

Our dinghies remain close at hand for snorkeler's convenience and safety.

We will offer snorkeling activities once or twice per day on the best snorkeling spots of the archipelago.

KAYAKING*

New, transparent kayaks! Watch the fish while kayaking!

All kayaking activities are in the company of one of our naturalist guides. We supply all necessary kayak and safety equipment.

SCUBA DIVING*

Designed for adventurous and certified divers looking for the some of best diving sites within the Galapagos Islands. Now you can combine our scheduled Galapagos Expedition Cruises aboard one of our vessels with fantastic optional diving tours run by a certified professional dive master. Included: diving equipment, pick-up and drop-off fees, transportation to dive sites, snacks and beverages.

* Optional activity, additional costs may incur.

SPECIAL INTEREST TRAVEL

We offer ample flexibility to adapt to any special needs or interests of the new traveler. From special activities to dietary needs we have hosted several types of travelers and made their vacation a true tailor-made experience. These are some examples of our programs.

FAMILY FRIENDLY

Families are welcome on our cruises! We have a kid's area where little-ones can relax, play and enjoy a host of activities while on board, complimented by other onboard activities for guests of all ages.

SCIENCE & EDUCATION

Following in Charles Darwin's footsteps, with a specialized expert, he or she will enthrall us with their in-depth knowledge from science and ecology to history and geology in a comprehensive and fun filled excursion.

PHOTOGRAPHY

Enjoy unique photographic opportunities, where our guides and a wildlife photographer will help you experience these amazing places through our dedicated photographic itineraries.

SOCIAL PROJECTS & DEVELOPMENT

Support local communities by being part of a cross-cultural experience in remote and beautiful settings. We offer tours to the Karanki Community, north of Quito, to promote the growth and development of their people.

HONEYMOON

The Galapagos Islands are the perfect honeymoon destination, with stunning backdrops, approachable wildlife and quality time for relaxation. We will make it extra special with champagne, a fruit basket, chocolates and a private romantic dinner for two.

ACTIVE TRAVELLER

Ecuador is the perfect country in which to feel adventurous, offering outdoor sports from mild to extreme. In our mainland tours we can add activities such as diving, rafting, biking, trekking and mountain climbing among others. We can also design your Galapagos itineraries to be more active if requested.

BIRDWATCHING / ORNITHOLOGIST

With more than 1,650 bird species in continental Ecuador, plus 38 more in the Galapagos Islands, Ecuador is a birdwatcher's paradise! Travel with a top ornithologist and let him or her share their expertise of this amazingly diverse avifauna.

KOSHER

We offer a kosher-friendly option to all guests who request it. Tableware and a private restaurant is available when needed. We have many years of experience serving kosher guests.

CORPORATE TRAVEL INCENTIVES

We can organize corporate-style travel for your employees or business conferences while cruising the Galapagos Islands, including all the facilities of our on board auditorium. We are also able to customize areas of the vessel to a specific use.

A TYPICAL CRUISE DAY

A soothing morning wakeup call signals a freshly prepared *al fresco* breakfast on deck.

Armed with snorkel gear, sunblock and camera we then board our *pangas* and head towards shore for our morning adventure.

Every excursion is different, but might include a visit where we squeeze past boobies nesting on the narrow trail, sit and watch endemic waved albatross absorbed in their intricate courtship ritual, or stare into the eyes of a curious sea lion underwater as it peers into our face mask.

Returning aboard for a sumptuous, buffet-style, lunch we are able to enjoy time to relax in the pool, jacuzzi or on deck looking for wildlife and watching the scenery change as we cruise to our afternoon destination.

With every new visitor site being different from the last, we can once again expect another uniquely Galapagos experience for the afternoon hike. This could quite possibly be followed by another fabulous snorkel with turtles, large schools of yellow-tailed surgeonfish or even penguins! Some might choose to follow the dramatic shoreline in a kayak or effortlessly glide over the sea bed from the comfort of our motorized glass-bottom boat.

Return to the vessel to enjoy a delicious BBQ on deck as the sun sets on the horizon or, a sophisticated *a la carte* dinner.

After dinner is a time to enjoy one of our many onboard activities, relax or be outside stargazing.

NATURALIST GUIDES

We fully understand how important your Galapagos experience is to you and as such, our team of naturalist guides has been carefully selected and trained to make it complete. Having been certified by the Galapagos National Park Service, our expert guides are ready to conduct informative walks covering every aspect of biology, geology, oceanography and human history relevant to the islands. Our group size ranges from an average of 12 to a maximum of 16 clients per

guide. English or Spanish speaking groups are standard with many other languages available on previous request. We run a series of specialist conferences, delivered by renown experts, aimed at the naturalist guides to further expand their knowledge in different fields such as geology, biology, photography, ornithology, and other related studies.

ONBOARD STAFF

Every crew member is trained to provide a first-class service with exceptional professionalism. Genuinely friendly individuals, fully dedicated to providing the best hospitality services, with attention to detail and personalized assistance, our crew's passion and commitment creates a one of a kind experience for our guests.

ECO-LUXURY BOUTIQUE CRUISE EXPERIENCE

Providing an ecologically sound cruise definitely does not mean that we have to compromise on luxury!

We are acutely aware of the fragility and importance of the Galapagos National Park in which we have been operating and doing things right since 1983.

Some of our eco-friendly practices include that all toiletries provided in our cabins are biodegradable and made from natural components as well as all the cleaning products used during housekeeping. As a complimentary gift, guests will find a thermos in each cabin to be refilled at one of our vessel's potable water stations, thus reducing the use of plastic bottles.

The vessels are equipped with sophisticated water treatment plants to desalinate, filter and purify water for consumable use. The decor of our vessels is acquired from sustainable-certified teak plantations and all our food supply is carefully planned to reduce kitchen waste. We aim to live the present and protect the future.

While being pampered on one of our 5-star, boutique cruises, with true local flavor and personalized service, we want you still feel good about yourself in the comforting knowledge that our sustainable practices will preserve the integrity of the islands for generations to come.

SERVICES ABOARD OUR FLEET

- Medical attention 24 hours a day
- Cruise director
- Expedition leader

GALAPAGOS LEGEND

Boutique Expedition Cruise

This impressive vessel, with capacity for 100 guests, was extensively refitted in 2017 to better enhance your Galapagos experience. As well as being the fastest cruise ship operating in the islands, she remains the only vessel with an onboard pool. Fast, sleek and beautifully appointed, she retains a cozy, homely and intimate atmosphere. Her classic, yet contemporary interiors perfectly balance the huge open deck space.

Among our most exciting new features is the addition of 18 luxurious balcony suites, the new Charles Darwin Panorama Lounge with huge floor to ceiling windows, and a spectacular *al fresco* BBQ featuring a unique lifeboat dining experience. We have deliberately incorporated as many distinct niches and atmospheres within the vessel as possible to cater to the varying moods or sense of privacy our guests require.

Beyond what you might expect, the Legend is equipped with a glass bottom boat, transparent kayaks, a kid's corner, a naturalist center, boutique, snorkeling equipment room and a full auditorium facility able to cater to corporate conferences. Whichever of the wide variety of itineraries you may choose, ranging from 3 to 14 nights on board, we are fully committed to surpass a mere holiday and create a life-changing experience.

CHARLES DARWIN PANORAMA LOUNGE BAR

Inspired by Charles Darwin's explorations in Galapagos, the lounge features a full bar serving a variety of local and international drinks. Equipped with high-end audiovisual equipment, a 24 hour complimentary snack and coffee station, Wi-Fi service and floor to ceiling windows, this is the place to be.

FISHERMAN'S BAR

The fisherman's bar features cold, local, craft beer, a variety of cocktails and cold sparkling wines to enjoy beside the only shipboard pool in the entire archipelago.

AL FRESCO RESTAURANT

BBQ dinner amid the islands in a buffet style meal with a great selection of cuts, sea food, vegetables and salad options. Two lifeboats with tables that can accommodate up to 14 people each for a classic dining experience.

THE GALAPAGOS ARE MEANT TO BE EXPERIENCED OUTDOORS.

OPEN SPACES ARE OUR SPECIALTY

- Jacuzzi
- Pool
- Sun deck Area
- Al Fresco Restaurant
- Private Balconies

7,244 ft² (673 m²) of Outdoor Space.

BEVERAGE PACKAGES

Make the most of your cruise experience by saving time and money with our beverage packages that offer a range of soft drinks, local, craft beer, a selection of sparkling wines and classic cocktails to be served at our bars and restaurants.

LONESOME GEORGE RESTAURANT

Our acclaimed Lonesome George Restaurant will surprise you with its wide range of mouth-watering, culinary delights. Using fresh ingredients, we serve a high level of international and local cuisine from our professional chefs. With an *a la carte* dinner option we also cater to vegetarian or kosher requests and include a children's menu.

GALAPAGOS LEGEND - Scuba Diving

For adventurous and certified divers looking for the best dive sites in the Galapagos Islands, this service is provided with professional dive masters and instructors. It now can be combined with our scheduled Galapagos Cruises on board the Galapagos Legend. If interested, you can do a couple dive tours in a day. Ideal for divers who would like to share with their family and friends a Galapagos cruise, but still want to see the amazing underwater world of the Galapagos.

US\$ 326 net per person (4 hours)

Minimum 2 pax and maximum 8 pax, per diving boat, and it includes:

- Pick up and drop off from the cruise ship.
- Transportation to the diving site (duration of 30 to 60 minutes, depending on the site).
- 2 immersions during a period of half day, Duration: 45 - 60 minutes each.
- Dive equipment (tank, weights, wetsuit, fins, mask, regulator, bcd, snorkel).
- Snack and beverages.

COMPLIMENTARY ASSISTANCE FOR PASSENGERS CRUISING ON OUR FLEET ONLY IF USING OUR SCHEDULED FLIGHTS

QUITO & GUAYAQUIL AIRPORT

- Free shuttle service in connection with our cruises: Pick up time from hotels to airport: approx. 3 hours before flight, from / to specific hotels in Quito and Guayaquil. Reservation is required.

Quito: Patio Andaluz, Mercure, JW Marriott, Swissotel, Hotel Quito, Dann Carlton.

Guayaquil: Palace, Grand Hotel, Wyndham, Oro Verde, Hilton Colon.

Pick-up times will be reconfirmed at the hotel the night before the departure.

- We are not responsible if passenger misses the shuttle, flight, cruise for failing to show up on time. Arrive at the airport at least 90 min. before the flight. Itineraries flights and shuttle service are subject to change.

- The cruise documentation will be delivered on the way to the airport.
- SICGAL inspection for seeds, plants, fruits, etc.
- Counsel of the Government of Galapagos - Migration Control Card (if not prepaid \$20).
- At the airport in the Avianca counter, one of our representatives will provide the Migration Control Card (if paid upfront) luggage ID & boarding pass.
- Luggage check-in, 1 piece 20 kg (soft case).
- Boarding pass issuance.

GALAPAGOS AIRPORT

- Galapagos National Park fee payment (if not invoiced and prepaid by us).
- Pass CGG Consejo de Gobierno de Galapagos control.
- Baltra & San Cristobal Airport assistance.
- Luggage pick-up and delivery to Galapagos guide.
- Transfer to port/dinghy ride to ship.
- Luggage delivery to the cabin by crew members and back to the airport.

GALAPAGOS ISLANDS VISITOR SITES

BARTOLOME ISLAND

Considered the most iconic landscape of the entire archipelago the view from the top of Bartolomé Island, overlooking the famous Pinnacle Rock and the austere Santiago Island beyond, is well worth the climb up the wooden boardwalk. This volcanic scene has often been likened to a lunar landscape. Our subsequent snorkel here might put us face to face with Galapagos penguins, white-tipped reef sharks and playful sea lions.

FLOREANA ISLAND: PUNTA CORMORAN

On arriving, the observant visitor will notice that olivine, a volcanic crystal, has proffered a subtle green hue on the dark beach. Our walk takes us past island-endemic *Scalesia* plants to a large, shallow, lagoon often inhabited by a variable number of shockingly pink greater flamingoes. We continue through a forest of *palo santo* trees to arrive at a powdery white beach, a nesting area of green turtles. As we paddle barefoot in the shallow water we will spot diamond stingrays and white-tipped reef sharks.

ESPAÑOLA ISLAND: GARDNER BAY

One of the most stunning beaches in all of Galapagos. The long, white, sandy beach, lapped by turquoise waters is home to a colony of Galapagos sea lions, indifferent to the humans that walk amongst them. The Hood mockingbirds, endemic to this particular island, will be eager to inspect the visitors and satisfy their innate curiosity. Darwin's finches may also join the throng including the reclusive warbler finch. We can also snorkel here from the beach, in the shallows of the bay.

FLOREANA ISLAND: DEVIL'S CROWN

One of the favourite snorkeling sites in the islands. Devil's Crown, an eroded volcanic cone, is home to an abundance of fish and marine animals. We will swim with big schools of yellow-tailed surgeonfish, salemas and creolefish and with luck may spot turtles, spotted eagle rays, parrotfish, and even hammerhead sharks! The jagged 'crown' is a roosting area for boobies, noddies, tropicbirds and frigates.

ESPAÑOLA ISLAND: PUNTA SUAREZ

One of the highlight visits of the trip. Punta Suarez seems to have everything - a naturalist's paradise. A slew of marine iguanas and sea lions greet us at the landing site from where our walk continues with close encounters of boobies, endemic lizards, gulls and even a dramatic blow hole. The oldest extant island in the archipelago it is our only opportunity to commune with the endemic waved albatross during their breeding season between April and December. With luck, we can watch their complex courtship display.

FLOREANA ISLAND: POST OFFICE BAY

A very short walk from the beach leads us to the famous Post Office Barrel. Claimed to have been first setup in 1793 by Captain James Colnett it remains the oldest functioning 'post office' in the Pacific. The system was that whalers and fur sealers would leave addressed letters in the barrel to be picked up by homeward bound colleagues. In the spirit of maintaining tradition visitors today will often take letters and hand-deliver them in their home countries.

FERNANDINA ISLAND: PUNTA ESPINOSA

The youngest island of Galapagos and one of the most pristine in the world. Fernandina is simply the 'marine iguana capital of the world'. This desolate volcanic backdrop is home to a huge concentration of these enigmatic reptiles. Incongruously, sharing the same shoreline, we can find the diminutive Galapagos penguins. Here we also have the exciting opportunity to snorkel with marine iguanas feeding underwater, penguins, turtles and the bizarre, endemic, flightless cormorants.

GENOVESA ISLAND: DARWIN BAY

From within the flooded caldera of Tower Island we set foot onto a sandy beach to be greeted by swallow-tailed gulls often said to be the most beautiful gull in the world. Our short, flat, trail leads us past stands of mangroves and saltbush on which we have our best possible looks at nesting red-footed boobies and great frigatebirds. At the tidal lagoon we may also see the rarest gull in the world, our very own, endemic lava gull.

FLOREANA ISLAND: CHAMPION ISLET

A truly magical place to snorkel. We would expect to see here green turtles, harmless white-tipped reef sharks, an impressive diversity and abundance of fish as well as some playful sea lions often approaching very close, itching to show off their prowess in the water. Champion Islet also happens to be the last remaining home of the island-endemic Floreana mockingbird which we may be lucky enough to see from our *pangas*.

GENOVESA ISLAND: EL BARRANCO, PRINCE PHILIP'S STEPS

Riding our *pangas* to the far side of the caldera, red-billed tropicbirds display vociferously overhead while Galapagos fur seals can be seen on the shoreline. Once at the top of the rocky stairway we are immediately met by Nazca boobies, red-footed boobies, mockingbirds and finches that line our way through a *palo santo* forest until we arrive at an expansive open lava field. Wedge-rumped storm petrels swarm above the lava where we keep our eyes peeled for short-eared owls.

ISABELA ISLAND: TAGUS COVE

A well-known hideout and deep water anchorage in the days of pirates, Tagus Cove was also one of the few sites visited by Charles Darwin and the HMS Beagle in 1835. A beautiful hike leads us past an overview of Darwin Lake and on to a stunning volcanic landscape revealing Isabela island's dramatic northern volcanoes. Once back at sea level the perfect activity is to snorkel along a submerged wall with turtles, lots of fish, penguins and potentially flightless cormorants. You might even be tempted by a *panga* ride or kayak!

ISABELA ISLAND: URBINA BAY

At the far end of a long, level hike we arrive at a strange phenomenon where large blocks of coral lie completely exposed after a dramatic geological uplift in 1954. Located at the western base of Alcedo Volcano we hope to run into a few very impressive land iguanas as well as some of the volcano's endemic Galapagos giant tortoises during the wet season.

ISABELA ISLAND: PUNTA VICENTE ROCA

This is a spectacular visitor site, surrounded by immense cliffs of the eroded volcano. Studded with resting sea birds such as brown noddies and Nazca boobies, we will enjoy them in close proximity from our dinghies. Snorkeling here is superb, with certain species of fish only found in the west of the archipelago. We also have a very real chance of swimming with penguins and potentially a plethora of green turtles.

MOSQUERA ISLET

This tiny, low lying islet, covered in coral sand, is set between North and South Seymour Islands. It is home to a group of sea lions that come to laze on the soft white sand. It is a good spot to observe shorebirds as well as herons, lava gulls and boobies. Snorkeling or diving here one can often see sharks, rays and barracudas.

NORTH SEYMOUR ISLAND

This flat, uplifted, island is an important spot to see both magnificent and great frigatebird males courting the females by clicking, bill-clapping, shuddering and flapping their wings, all while showing off their grossly inflated, bright red, gular pouch. We will also likely see courting blue-footed boobies displaying their unique feet while 'dancing' to a prospective mate. Sea lions, swallow-tailed gulls, crashing surf and distant views of the Daphne Islands top off a great visit.

SAN CRISTOBAL ISLAND: CERRO BRUJO

From our *pangas*, as we head to shore, we are first humbled by the immensity of the stunning cliffs of 'Sorcerer's Hill'. We can enjoy simply sharing the beach with sea lions, snorkeling from shore or take a walk to a hidden lagoon where we might spot black-necked stilts, ruddy turnstones, whimbrels and white-cheeked pintails.

SAN CRISTOBAL ISLAND: CERRO COLORADO TORTOISE RESERVE

In the moist highlands of San Cristobal we will visit the giant tortoise breeding center "La Galapaguera" to witness the most iconic creature of the archipelago in its various life stages. The tortoises wander in a semi-natural habitat which lends itself to good photographic opportunities. The aim of the reserve is to help restore populations of the threatened San Cristobal tortoise back into the wild. In town, there are shops to purchase local handicrafts and souvenirs.

SAN CRISTOBAL ISLAND: INTERPRETATION CENTER & FRIGATEBIRD HILL

The interpretation center is full of interesting information and offers the perfect overview to the formation of Galapagos, its significance in the world, threats and conservation efforts. Followed by a hike to Frigatebird Hill (Cerro Tijeretas) we will have great looks at both species of frigatebird, with the bonus of a beautiful view of the bay below.

SAN CRISTOBAL ISLAND: PUNTA PITT & ISLET

Sea lions will greet us as we land on the beach and prepare for our climb to a high point on the steep eroded tuff cone. This is the only place in the islands where we will enjoy the chance to see all three of the booby species in the same place. The red-foots will be perched on the *Cordia lutea* and small trees, the Nazca's on the ground near the cliff edge while the blue-foots will be a little further inland. Frigatebirds will be all around and the views are breathtaking.

SANTA CRUZ ISLAND: BACHAS BEACH

Named for some wrecked World War II barges whose ribs are still visible in the sand this visitor site offers great swimming, a lovely walk along the shore and a visit to a lagoon behind the high tide line with wading birds, marine iguanas and sometimes even flamingoes. The two beaches are also favourite nesting sites for green turtles which often leave tractor-like tracks in the sand.

SANTA CRUZ ISLAND: EDEN ISLET & BALLENA BAY

The perfect spot to enjoy our water activities of snorkeling, kayaking or the glass-bottom boat. Expect to see lots of fish species including king angelfish, surgeonfish, parrotfish, damsels, rays and sharks. From the land portion of the visit there will be sea lions and basking marine iguanas with herons and turtles in the mangrove areas. We might even discover some antique ceramic relics left behind by previous settlements.

SANTA CRUZ ISLAND: BLACK TURTLE COVE

Here we can find four species of mangrove in the extensive tidal lagoon system that stretches for almost a mile inland. During our *panga* ride through the labyrinth we will spot many turtles, herons of several species, sharks and rays. The experience is otherworldly and seems to transport us back to the beginning of time.

SANTA CRUZ ISLAND: DRAGON HILL

Arriving to a small lava dock our first encounters are with marine iguanas that blend-in perfectly to the dark rock. As we walk past large prickly pear cacti we arrive to one end of a long, sickle-shaped, beach with Dragon Hill standing in the distance. Our walk takes us on a circular path, past a shallow lake where flamingoes frequently come to feed. Waders such as stilts, turnstones and sandpipers work the muddy edges frenetically looking for food as we continue inland to a dry, forested habitat where land iguanas nest and burrow.

SANTA CRUZ ISLAND: FAUSTO LLERENA BREEDING CENTER

Once home to the famous Lonesome George, the last tortoise of the *Pinta* race, the breeding and relocation center is named in honour of his long-time guardian. The center is set in the Galapagos National Park Service where various interpretative buildings are available to visit. The grounds, with large stands of native vegetation are one of the better places to spot some of the seldom seen Darwin's finches such as the woodpecker, cactus and vegetarian finches.

SANTA CRUZ ISLAND: HIGHLANDS & PIT CRATERS

In the central highlands of Santa Cruz Island we have our best opportunity to interact at close quarters with totally wild, Galapagos giant tortoises. A short walk among these huge, 600lb, reptiles will also offer the chance for more highland species, especially several species of the famed finches. A visit to the collapsed, twin sink holes (Gemelos) puts us in a stunning forest of the endemic tree-forming *Scalesia*. Apart from the dramatic scenery this area is well known for its diversity of passerine bird species.

SANTA FE ISLAND

After a fabulous snorkel in the turquoise waters of the protected bay we may have enjoyed time with sea lions, turtles, reef sharks and spotted eagle rays. Landing onto a sandy beach we are immediately distracted by the abundant sea lions there with us. We begin a walk past a forest of island-endemic giant *Opuntia* cacti. Here we search for another island-endemic the Santa Fe land iguana, paler than its cousins on other islands. Galapagos hawks and even endemic rice rats are also things to look out for.

SANTIAGO ISLAND: EGAS PORT

The black volcanic sand sets this landing apart from most. It is best known for the dramatic shoreline where we meet a host of species that chose to live between land and sea. Particular among these are the endemic Galapagos fur seals which maintain a small colony at the end of our walk. Other species of note include American oystercatchers, sea lions, waders, herons, lava lizards and even Galapagos hawks. An optional visit takes us to an abandoned salt mine famous in its day for supplying salt to mainland Ecuador.

SANTIAGO ISLAND: SULLIVAN BAY

Although, when viewed from the sea, the site does not look especially interesting visitors are always totally enthralled by the amazing beds of pahoehoe lava from the recent flow on the island. It is a landscape and macro photographer's dream. The importance of pioneer plants such as the tiny *Mollugo* will be discussed as we hike over the lava. After our land visit we can enjoy a refreshing snorkel in the company of sea lions, turtles and rays.

SOUTH PLAZA ISLAND

Sea lions, swallow-tailed gulls and land iguanas are all present at the landing site. The small island is covered with a carpet of a red succulent studded with *Opuntia* cacti. At the cliff edge, we spend time watching birds fly past at eye level in the updraught. These include, frigatebirds, flocks of Galapagos shearwaters and of particular note, flights of displaying red-billed tropicbirds. Back at sea level, we once again encounter land iguanas, some of which have hybridized with their resident marine cousins.

RABIDA ISLAND

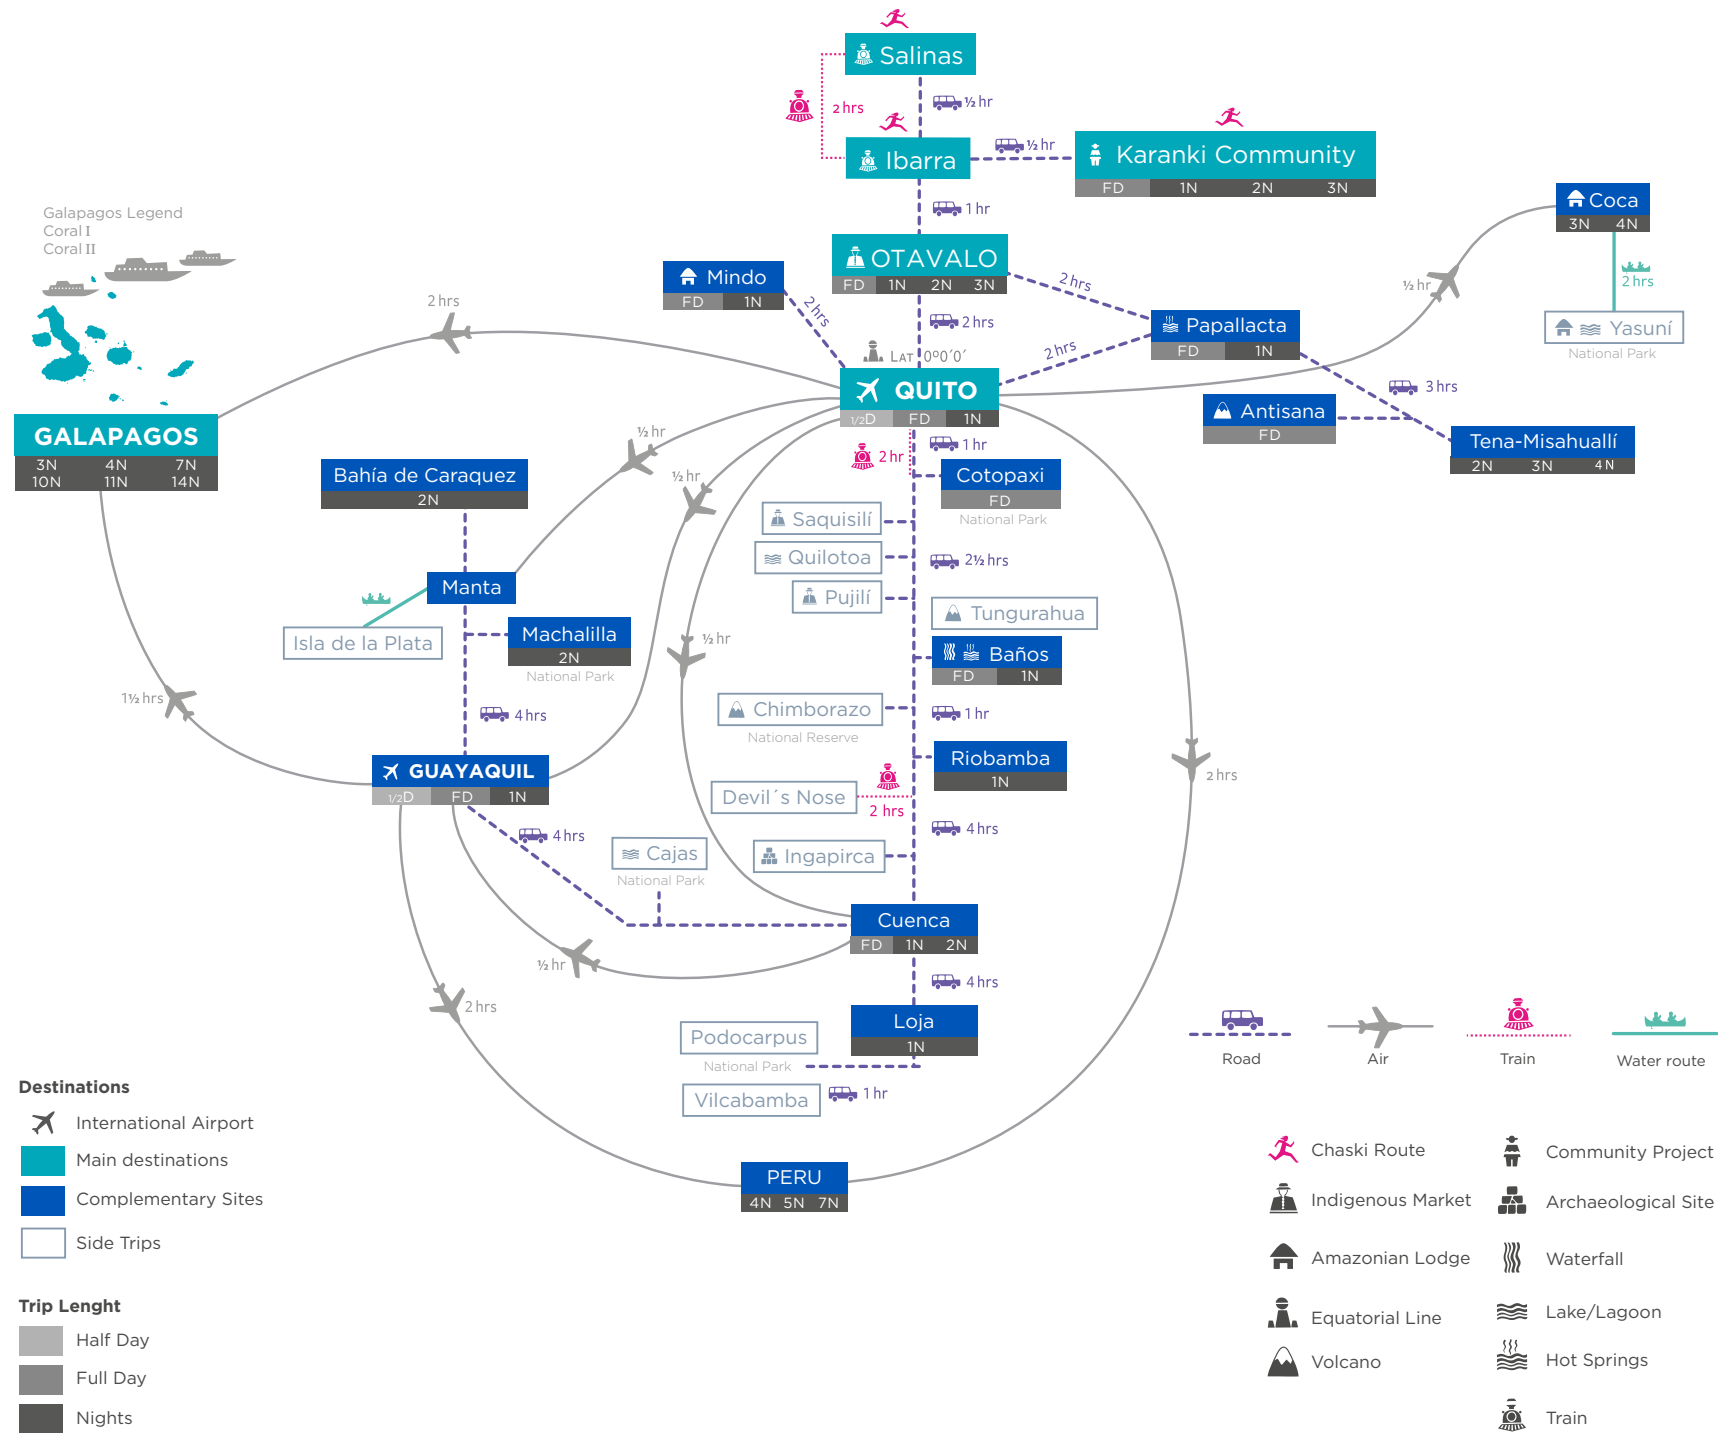

Lying at the heart of the archipelago this dramatic island, with its distinctive red-sand beach, is home to sea lions, mockingbirds, finches, endemic Galapagos doves and vermilion flycatchers. A walk takes us through a forest of *palo santo* and cacti to a beautiful overview of the bay. Snorkeling here can be excellent, often with large schools of black-striped salemas, sea lions and the ubiquitous turtles.

Our other Cruise Ships CORAL YACHTS

The Coral I & II are gorgeous, comfortable, sister yachts offering charming social areas distributed on three decks, with both outdoor and interior spaces allowing you to enjoy an intimate expedition experience in your own way. With a capacity for 36 and 20 guests respectively, the vessels offer open deck areas with a Jacuzzi to make the best of your relaxing time while cruising the islands. The interiors are thoughtfully designed to resemble a private yacht experience in a cozy ambiance. The restaurant serves delicious Ecuadorian and international cuisine even extending to a BBQ dinner on the open-air Moon Deck. They are the perfect cruise vessels for charter groups where the thrill and comfort are guaranteed.
